BOARDING POLICY

Boarding is different from hospitalization in that it is provided for healthy animals not needing intensive care or treatment. Of course, should your pet require any medical or preventative treatment while boarding, you can rest assured that he/she will receive it.

All animals entering the hospital must be current on vaccinations at least two weeks prior to boarding and free of external parasites (fleas, tick, etc.) or they will be treated upon entry at the owner's expense.

We cannot accept toys or blankets from home. We will provide everything necessary for your pet's comfort.

It is our desire to send all pets home as clean as possible. Most pets benefit from a bath on the day of discharge. One of our receptionists would be more than happy to give you a quote. If you would like this service, please make the request at the time of admittance.

PICK-UP / DROP-OFF TIMES:
